The FY2026 CoC local competition opened on June 1, 2026, but was briefly paused, reopened and had the due date of September 30, 2026, which only allowed for applicants a few days to complete the process. CoC's were afforded special rules to complete the process and timelines for rank and review. All eligible applicants were notified via email/website posting. Projects were scored using the publicly posted rating tool. An appeals process is not currently available due to the short term allowed for submissions.
